

## **Future Plans**

For the future, I would like to work using a combination of my skills, whether it be making promotion videos for video games, or video logos for any kind company, or working as a project manager on video game projects, and also assisting in the development of the game script, art work , game play and level building.

To do this, I would primarily like to work for an established company so I further improve existing skills and improve my business skills. I would like to learn new and very specialised skills, that are industry relevant and specific.

However , if this situation does not arise, I would like to start my own company or operate as a sole trader to pursue the same goals
